Session 1: Evolved YOU

Homework: Assessment Testing

Homework: Unique Ability Email to 10 people

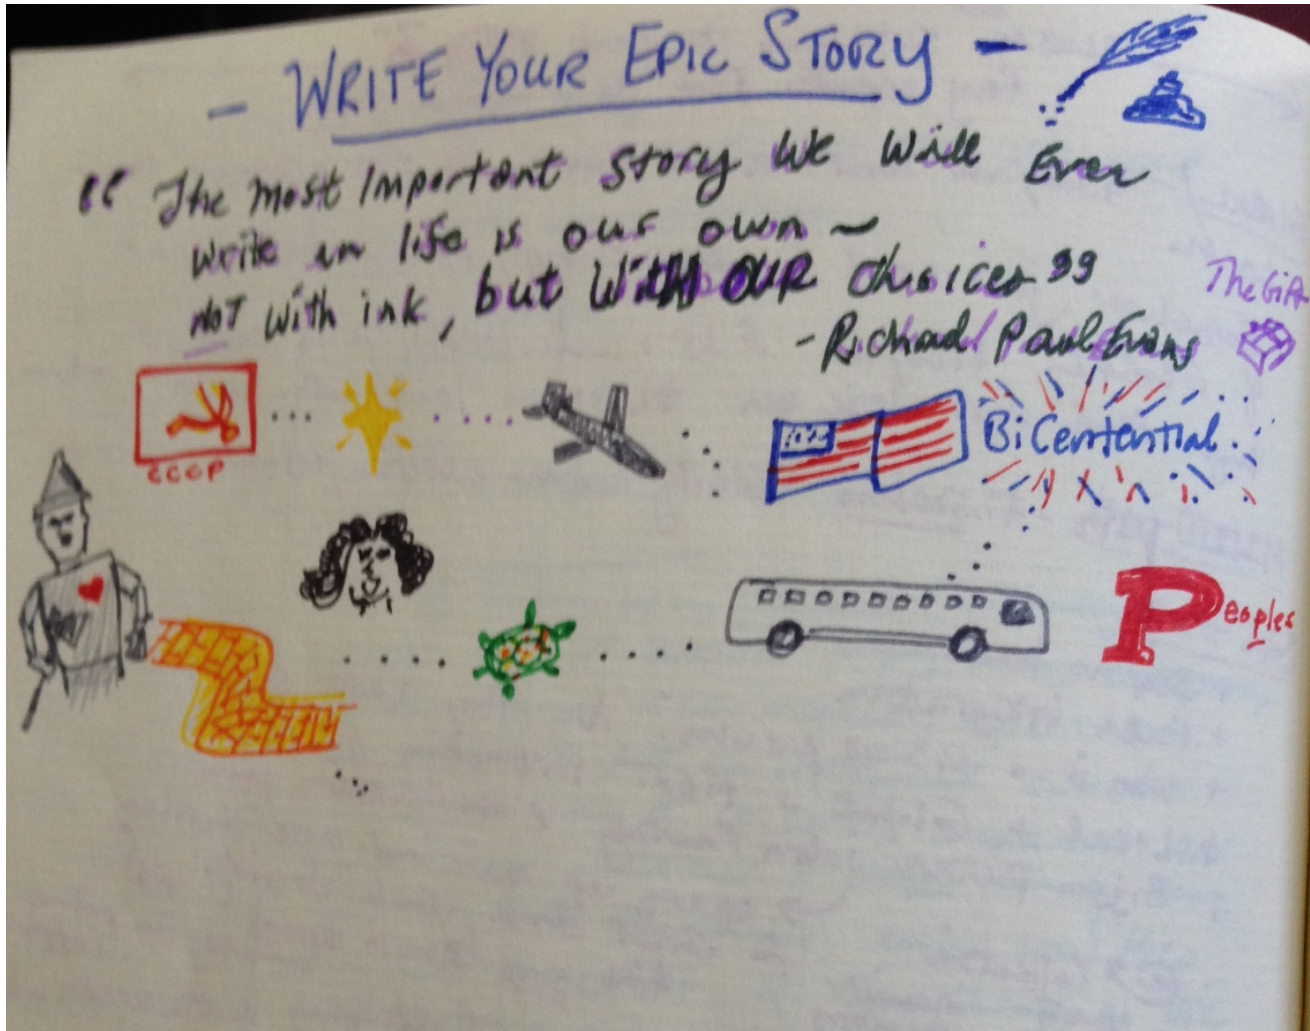

Hi,

This is <<XX>>, I'm doing a program where I'm asking several people I respect about the best qualities they see in me. Not like "I smile a lot" but what you think I do in such an awesome way that I might not even see.

Or something you know you can always count on me for or impresses or that just seems to come naturally. Some combination of talent, interests and capabilities that are unique to me.

I'd really appreciate it if you could consider the following question and send me back an answer: "What do you see as my Unique Ability?"
