**Brand new fact-filled e-book tells you most everything you need to know about Chihuahua dog and puppy information and care.**

**My neighbors were threatening to kick us out of the building if I didn't find a way to keep my Chihuahua from barking... I needed help — FAST!**

**There's no more loving, loyal companion than a Chihuahua that is happy, healthy and well-behaved. I did it and you can too. Here's how!**

Saturday, January 29, 2005

Dear Friend,

**Tiny as they are, there's no dog who can match a Chihuahua for heart.** As a toy breed, these fur-babies can be **easily injured and need lots of love and care.** They thrive with owners who **love them for what they are** and learn how to care for them. For those who do, **your reward is unequalled love, loyalty and lifelong companionship.**

If you're considering a Chi, you probably already realize that this breed isn't for everyone. **A Chi has some important differences from other family dogs.** Chihuahuas are **not rough and tumble**, but they **do like to play.**

Chihuahuas aren't going to scare someone off by their size, but if you get between a Chihuahua

and its territory (or its owner for that matter) you'll hear the bark of a dog ten times its size— as my annoyed neighbors would tell you if you asked!

Another thing to consider, **Chihuahuas don't eat the same food other dogs do**, but their meals are easily planned and the **right food is easy to find**.

Of course Chi's also have all the best of other breeds — you can **train** them, **breed** them and **travel with them**. Chihuahuas like to play with other Chihuahuas and larger dogs too. And though it seems hard to believe (unless you've seen it with your own eyes), you'd be amazed at how intimidated a big dog can be by a tiny Chi!

## Let me show you how to have the happiest, healthiest and most well-behaved Chihuahua (adult dog or puppy) guaranteed!

**Chihuahua Secrets** is an all-new 86-page e-book that covers most things you'll need (or want) to know about these loyal, loving pets — answers to over 200 different questions asked by Chi owners and owners-to-be.

This isn't a dry, lifeless book compiled by "experts"... this book is written by someone who owns (and loves) these little fur-babies. After surveying hundreds of Chi owners about their **most pressing concerns** regarding the **health and well-being** of their Chi, I began working to **uncover the best information on diet and exercise, behavior, training, grooming, traveling...** the most you'd ever want to know, and then some.

The result is **Chihuahua Secrets**, a complete guide to the health, happiness and well-being of your Chi. Inside, **you'll find all the latest research, plus tips and tricks that really work** (I know, because I've used them myself). What's more, you'll get handy checklists to help you choose and prepare for the new addition to your life. And, what would a book about Chi's be without a few (okay, more than a few) pictures of these adorable dogs! There's even one of the "West Side Story" Chihuahua — a real hoot.

## Here are just a few of the topics covered in this fun, easy-to-read e-book.

- Who should (and shouldn't) get a Chihuahua
- 7 things to look for when choosing your Chi
- Basics of owning (and caring for) your Chi
- Diet and nutrition, plus tips for finicky eaters
- Dealing with behavior problems (like barking)
- 5 housetraining tips that really work
- Fast and easy tricks (really!)
- Grooming (do-it-yourself or finding a groomer)
- Travelling with your Chi

- 10 warning signs that could save your Chi's life
- And much, much MORE!

***Chihuahua Secrets is a great resource for Chi owners (and owners-to-be). But don't just take my word, here's what some readers say...***

**"It answered all my questions."**

"I have just finished reading your very informative book. My husband, Tommy read it as soon as he got it. I really, really liked it! It was extremely helpful, easy-to-read and you didn't talk down to the reader even though it's obvious you know so much.

It answered all my questions. I loved everything about your book. It made me laugh and it also made me just want  hug my Chi so hard when I read some of your explanations for their behavior. I liked the cute cartoons and photos too. You really covered every topic imaginable. Thank you so much."

-- Hazel and Tommy

**"I'm not happy with this publication... I'm THRILLED!"**

"I have picked up several tips in this publication that will help me with my Chi's training. I've also learned about health precautions I never knew to watch for. Thank you from Bandit and I, we are very pleased to have this wonderful source of information."

-- Sue Bixler and Bandit.

## "A job well done!"

"Great book, includes all (most types) Chihuahuas; not just the ones that the AKC recognizes. It is important to have the written validation that not everyone has or wants a Chihuahua that is 6 pounds of less! It is not the size that counts as much as the companionship and personality!

Great job done in writing a planned list of what to know and what to do about selecting a Chihuahua, and if the Chihuahua breed is the one for you! May ALL your DREAMS come true! Sending Love, Light, Joy, Blessings, PEACE and Dreams YOUR Way."
