# P3 Line Vs. PD-P3

Difference Between Triple Bottom Line and  
*Performance Driven* Triple Bottom Line

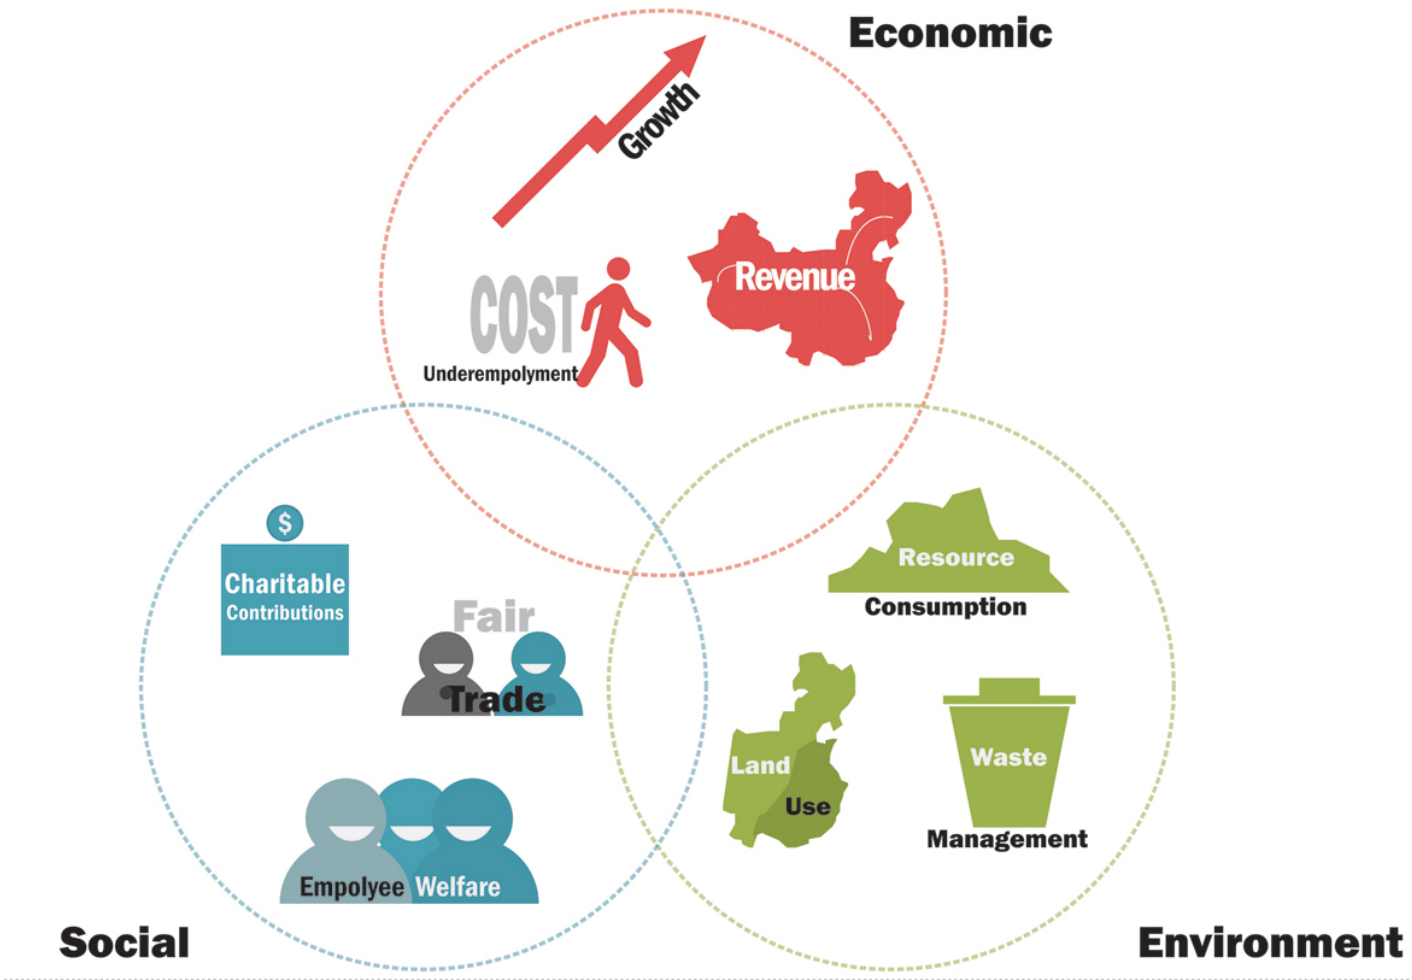

What do we mean by **Triple Bottom Line** – or **P3**...

Bottom Line refers to either the "profit" or "loss" of a business

Triple Bottom Line is a phrase coined by John Elkington in 1994 (deemed by Business Week in 2004 as a dean of the corporate responsibility movement for the past 3 decades).

Is a way that businesses use to evaluate their performance in a broader perspective to create greater business value to include

- ① People
- ② Planet
- ③ Profit

What is lacking in the traditional P3 Model?

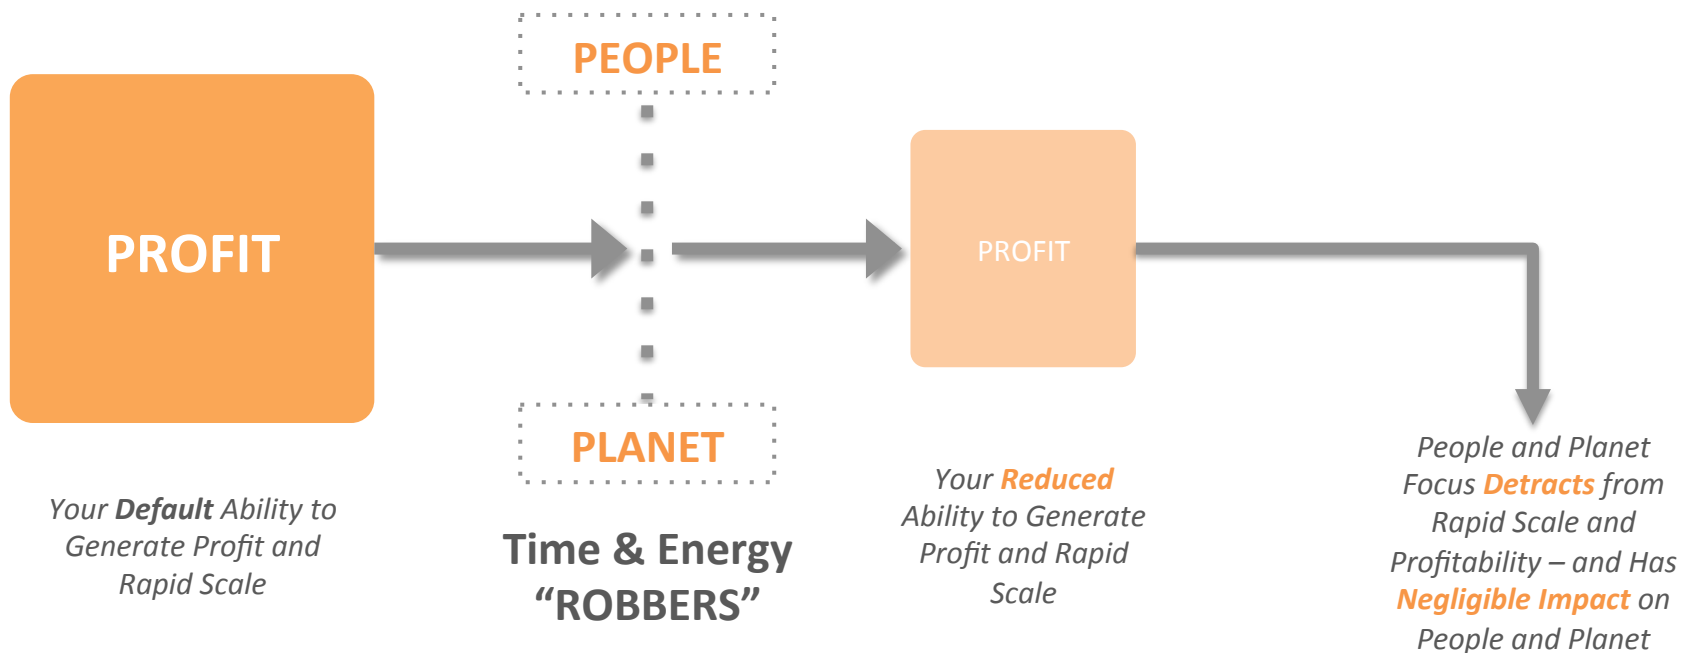

- ❑ The **People** and **Planet** part can often be “window dressing” that do not really drive the most critical part of a company – it’s *financial bottom line*.
- ❑ Hard for small business owners to justify the **time, energy,** resources to the People and Planet parts when they are just *trying to survive*.
- ❑ Hard for larger businesses to justify the time, energy, resources to share holders.

In most cases, the People and Planet elements while trying to create a more comprehensive “Bottom Line” – often

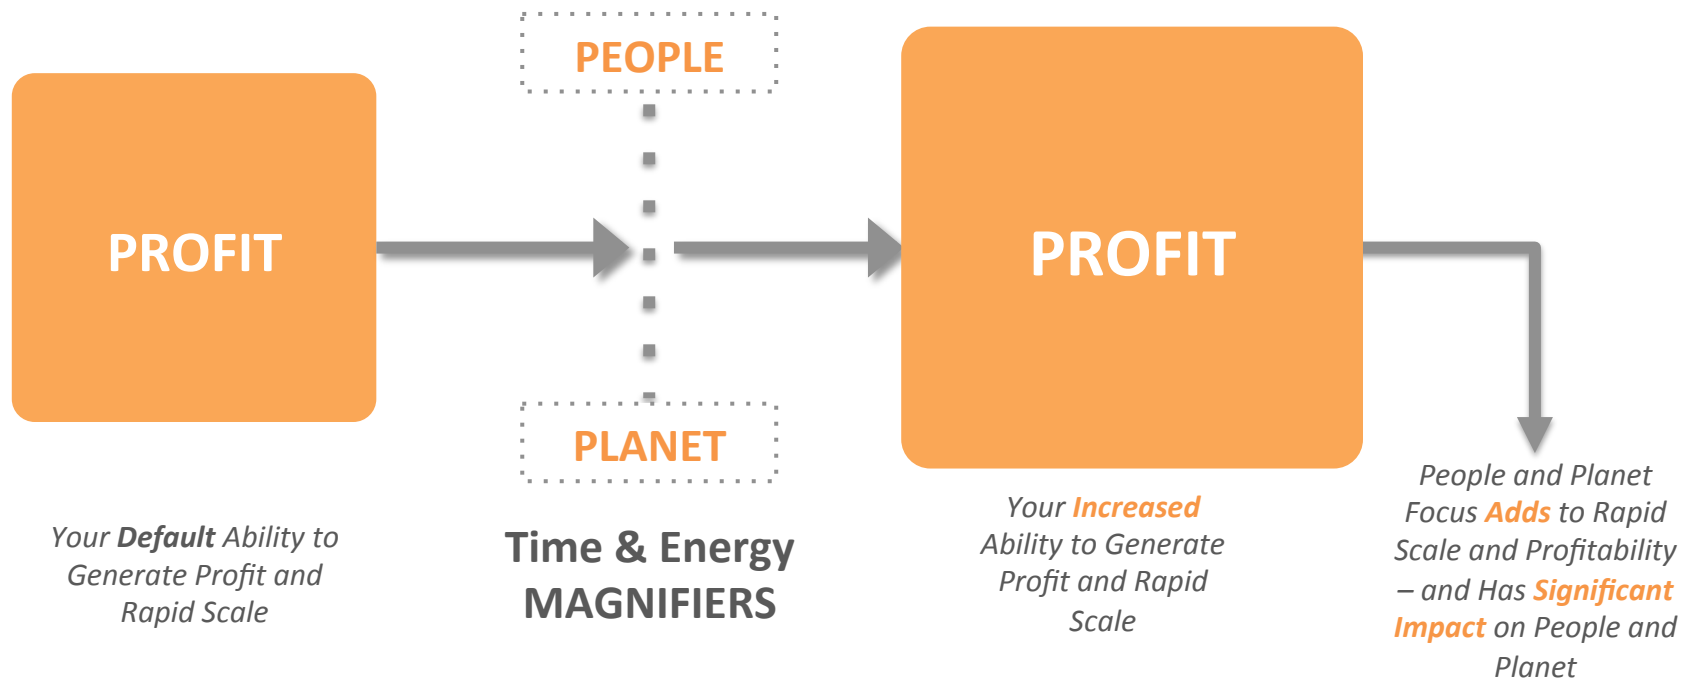

Detract from a companies ability to increase revenues

Don't really have a substantial impact of People and Planet

With a PD-P3 Model, the People and Planet elements while do create a more comprehensive “Bottom Line” – while Significantly adding to a companies ability to increase revenues AND have a massive positive impact on People and Planet

# Why is PD-P3 So Important - NOW

The Power of Small Business and Why We Must Leverage It

Why is it critical as small business owners to embrace a PD-P3 Model for Rapid Scale – instead of just purely focusing on maximizing your profits?

- ❑ Small business is one of the most powerful forces on the planet
  - ✓ 28M small businesses in U.S. accounting for 54% of all U.S. sales
  - ✓ Small businesses provide 55% of all jobs and 64% of the net new jobs created between 1993 and 2011 (or 11.8 million of the 18.5 million net new jobs).
- ❑ We are at a critical point in our history as a planet
  - ✓ Challenged by extinction level problems
  - ✓ Everywhere we look we are faced with unbearable suffering
- ❑ Living in a time when a small group can make a big difference for billions of people
- ❑ It WORKS - it supports continuous rapid growth

# Let's Dive In

## How To Create a PD-P3 System

How to create a PD-P3 System that integrates...

- ❑ Sound rapid scale business principles
- ❑ Best of how to maximize human potential...
- ❑ AND give people hope again and the tools to live a life they love
- ❑ Provide a way to leverage the limitless energy people have to make a difference

All integrated to produce continuous, conscious  
non-linear rapid growth in **YOUR company**.

# Sound Business Principles

What Do the Greats Say It Takes To Successfully Scale....

Millions of people start new ventures – and of those that survive, 96% remain mice.

28M US Firms

BITE SIZE  
[96% < \$1M]

- 96% of all companies earn less than \$1M in revenue.

SMALL  
[4% = \$1M]

- Less than 4% of all companies reach \$1M in revenue.

MEDIUM  
[0.4% -> \$10M]

- 0.4% reach \$10M in revenue (1 out of 10 that make it to \$1M) y y

LARGE  
[.06% -> \$50M]

- 0.06% pass \$50M (17,000 companies)

SUPER SIZE  
[0.009% -> \$500M]

- 0.009% are larger than \$500M (2,500 companies)

The odds are not in your favor – will you make the cut?

One of the main problems we face as rapid-scaling business owners is that...

- There are so many complex elements to building a sustainably scaling business – and even if we know them all...
- we are so busy keeping our ship afloat doing the “Urgent Important” things...
- that we don’t have enough time to create a system that ties together all of the foundational elements of creating a sustainable, rapid scale business.

## So – what do you do?

We've created a simple, **quick-to-implement**, yet comprehensive set of principles and tools – along with a system to quickly integrate them into your business in a way you can grow with in a fun and sustainable way.

And it is my goal today to convey some of the key principles to you so you can integrate what we have learned into the operations of your business.

“Great By Choice” by Jim Collins:

Companies with **steady growth** year in and year out dramatically outperform companies that experience wild swings in revenue and profit.

The spoils of victory go to those that maintain a steady pace day in and day out - in all kinds of weather and storms.

And it is this

**predictability - driven by effective processes**

that is ultimately the key to crafting an organization that attracts and keeps top talent, creates products and services that satisfy customer needs, and generates significant wealth.

“Rockefeller Habits” and “Scaling Up” by Verne Harnish:

Growing a business is a dynamic process as the leadership team navigates the evolutions AND revolutions of growth.

And like the growth stages of a child, they are predictable and unavoidable.

The 4 Keys to successfully navigating these stages of growth are:

- 1) Attracting and keeping the **right People**
- 2) Creating a truly **differentiated Strategy**
- 3) Driving **flawless Execution**
- 4) Having plenty of **Cash to weather the storms**

Culture is a balanced blend of human psychology, attitudes, actions, and beliefs that combined create either **pleasure** or **pain, serious momentum** or **miserable stagnation**.

A strong culture flourishes with a clear set of values and norms that actively guide the way a company operates.

Employees are actively and passionately engaged in the business, operating from a sense of confidence and empowerment rather than navigating their days through miserably extensive procedures and mind-numbing bureaucracy.

Performance-oriented cultures possess:

- Statistically better financial growth
- High employee involvement
- Strong internal communication
- Acceptance of a healthy level of risk-taking

# FAST COMPANY

Some key facts on what makes a great culture from the “Great Workplace” based on extensive surveys:

- Management's credibility
- Overall job satisfaction
- Camaraderie
- Methods of internal communication
- Training
- Recognition programs

We then boiled this information down to 6 key interrelated business principles necessary to scale any business...

1. Establishing steady pace and growth day in and day out – **Predictability**
2. Attracting, keeping and developing the right **People**
3. Creating a differentiated **Strategy** / staying on top of **Market Dynamics**
4. Installing a **Scalable Infrastructure** / driving **Flawless Execution**
5. Having plenty of **Cash** to weather the storms
6. Developing a top-notch **High Performance Culture**

To succeed you must master these 6 fundamentals:

### 1) Predictability / Scalability

- Companies with steady growth year in and year out dramatically outperform companies that experience wild swings in revenue and profit.
- The spoils of victory go to those that maintain a steady pace day in and day out - in all kinds of weather and storms. And it is this **predictability - driven by effective processes** that is ultimately the key to crafting an organization that attracts and keeps top talent.

**Barriers:** Lack of focus (mostly due to time) on creating the systems and processes to organize and build your business around.

### 2) Attracting and Keeping the right Leaders & Employees

- Take a page from parenting: Establish a handful of rules, repeat yourself a lot, and act consistently with those rules.
- This is the role and power of Core Values. If discovered and used effectively, these values guide all the relationship decisions and systems in the company.

**Barriers:** The inability to staff/ grow enough leaders throughout the organization who have the capabilities to delegate and predict.

To succeed you must master these fundamentals:

### 3) Creating a Truly Differentiated Strategy

- You don't have a real strategy if it doesn't pass two tests.
  - ✓ First: What you're planning to do really matters to enough customers
  - ✓ Second: It differentiates you from your competition.

**Barriers:** Not having enough wisdom and/or time.

### 4) Installing a Scalable Infrastructure / Driving Flawless Execution

- Implement three key habits:
  - ✓ Set a handful of Priorities (the fewer the better)
  - ✓ Gather quantitative and qualitative Data daily and review weekly to guide decisions
  - ✓ Establish an effective daily, weekly, monthly, quarterly, and annual meeting Rhythm to keep everyone in the loop

**Barriers:** The lack of systems and structures (physical and organizational) to handle the complexities in communication and decisions that come with growth.

To succeed you must master these fundamentals:

## 5) Having plenty of Cash to weather the storms

- Don't run out of it!
- This means paying as much attention to how every decision affects cash flow as you would to revenue and profitability.

**Barriers:** Lack of focus on creating predictable, sustainable revenue generators.

## 6) Top-Notch, High Performance Culture

- Management's credibility
- Overall job satisfaction
- Camaraderie
- Methods of internal communication
- Training
- Recognition programs

**Barriers:** The lack of key personal / interpersonal growth and development tools and absent leadership.

“If these 6 factors are missing you will experience barriers to growth - feeling like there is an **anchor holding you back**.

If these 6 factors are in place, the anchor holding you back will turn into **wind blowing at your back** supporting your boat in sailing ever faster...

...supporting you in leaping from one white cap to the next, *without falling into the valleys of death.*”

The Transformance 90-Day Game by design trains your team to balance focus on:

**Quadrant 1** - What needs to be done now to maintain your business

**AND**

**Quadrant 2** - What needs to be done now to grow your business

# Let's Focus In On - Leadership

Prediction, Delegation, Repetition

"As goes the leadership team, so goes the rest of the company. Whatever challenges exist in the company can be traced to the cohesion of the executive team and its capabilities in prediction, delegation and repetition." – Verne Harnish

## Prediction:

- Leaders do not need to be years ahead - just minutes ahead of the market, the competition, and those they lead.
  - They key is frequent interaction with the market, competitors, and employees.
  - This is much easier when the company is small and the leaders are personally handling everything directly. And becomes increasingly more difficult as the company scales.
  - Senior leaders become further isolated from customers and frontline employees losing their gut feel for the business and marketplace.
- \*\* The Transformance 90-Day Game System freed leaders up to spend 70% of the week on market, competitor and employee facing activities.**

## Delegation:

Delegation is one of the most important skills a leader must develop.

Letting go and trusting others to do things well is one of the more challenging aspects of being the leader of growing an organization.

Successful delegation requires 4 components:

1. Delegate to the right person or team.
2. Pinpoint what the person or team needs to accomplish – Priorities
3. Create a measurement system for monitoring progress - KPIs
4. Provide feedback to the team or person – Meeting Rhythm
5. Give appropriately timed recognition and/or reward – MVP / Bonus

**\*\* The Transformance 90-Day Game System is designed to handle #1-5 allowing leaders to delegate effectively and efficiently.**

## Repetition:

The leader's final job is to **keep the main thing the main thing** - to keep the organization on message and headed in the same direction.

Repetition encompasses consistency. Finish what you start. Mean what you say, and don't say one thing and do something else.

Consistency is an important aspect of repetition. This includes:

- **Core Values** - the handful of rules defining the culture
- **Core purpose** - the top leaders regular stump speech
- **BHAG** - the 10-25yr goal that provided constant context
- **Priorities and Themes** - a handful of 3-5yr, 1yr quarterly priorities

**\*\* The Transformance 90-Day Game System is designed to allow leadership to deliver frequent messaging and metrics to deliver these key attributes.**

If you embrace these principles they are proven to:

- ✓ Reduce by 70% the time it takes the top team to manage the business (operational activities)
- ✓ Refocus the senior team on market-facing activities
- ✓ Realign everyone else (onto the same page) to drive execution and results

And when these tools are successfully implemented, organizations attain these four outcomes:

- ① At least double the rate of cash flow
- ② Triple the industry average profitability
- ③ Increase the valuation of the firm relative to competitors
- ④ Help the stakeholders — employees, customers, and shareholders — enjoy the climb

# Let's Focus In On - Culture

“Culture Eats Strategy for Lunch” – Fast Company

We take it a step further...

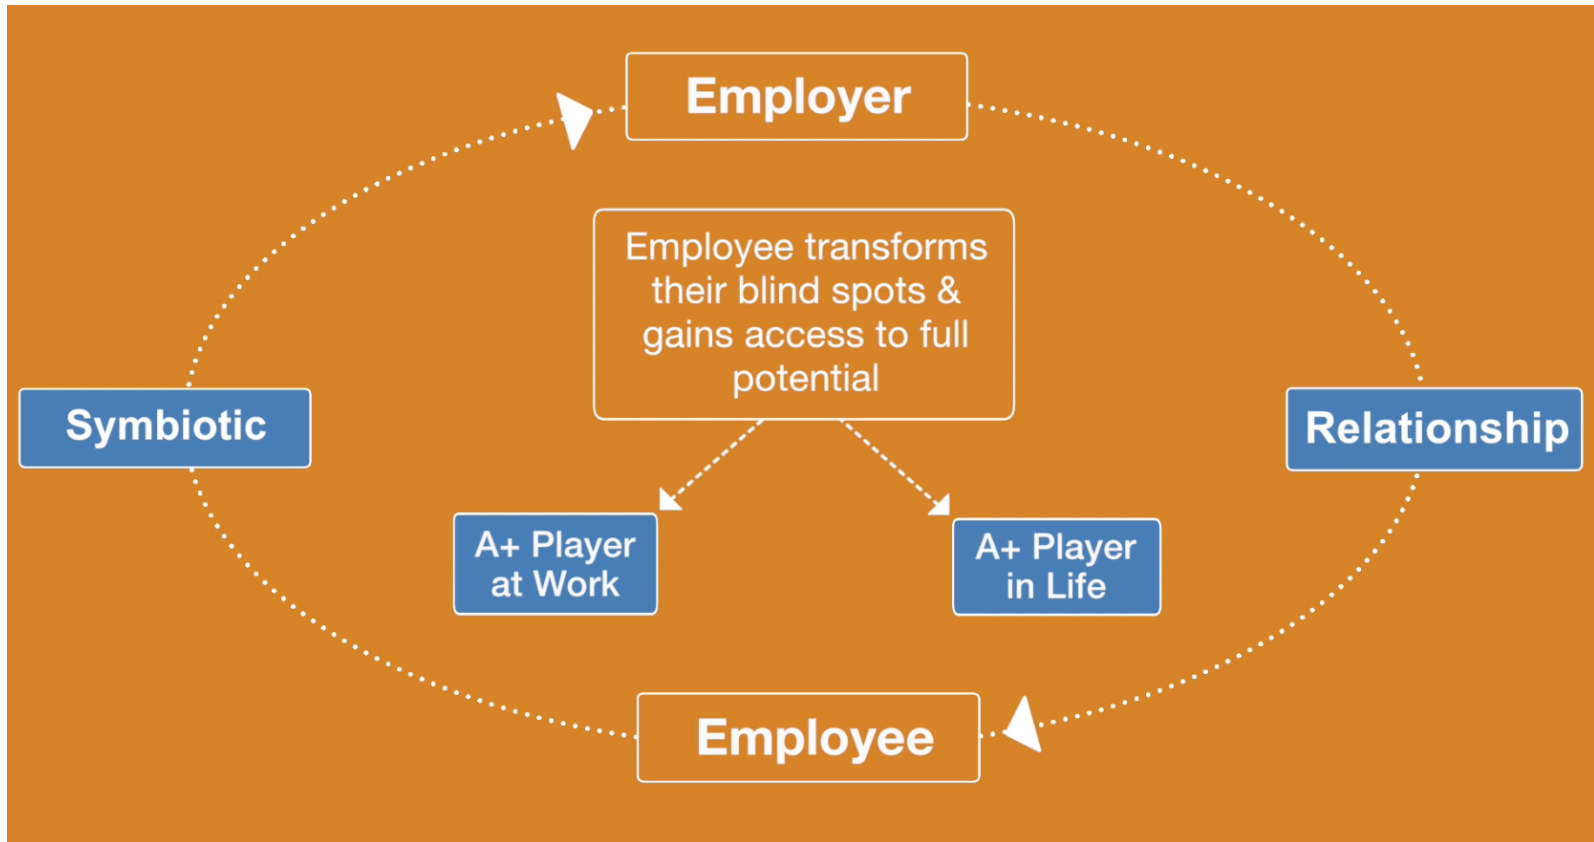

We say that as employers, we have the opportunity and it is **our responsibility** to:

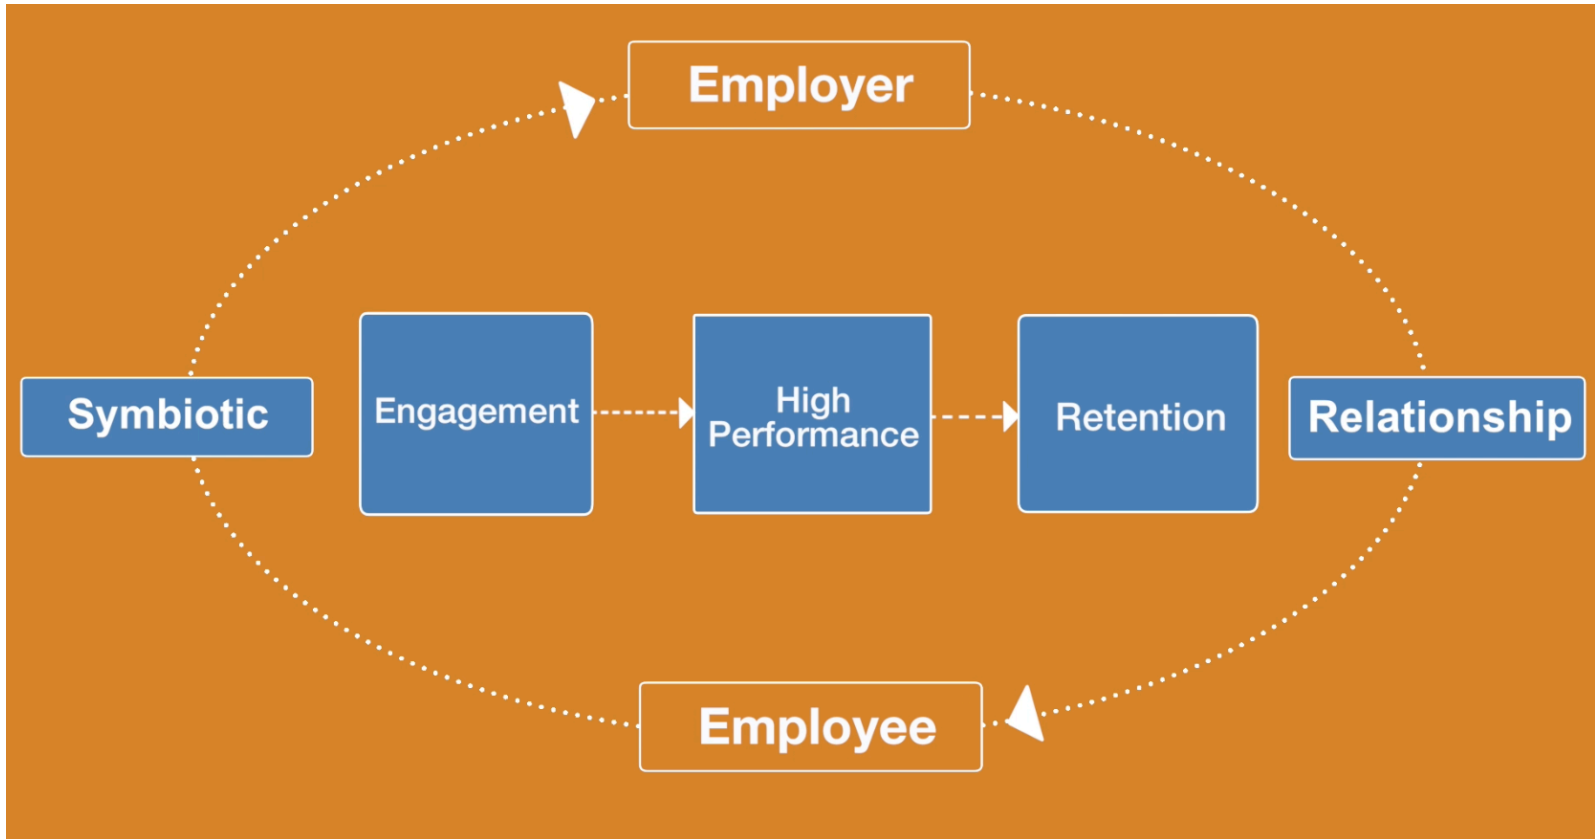

- ✓ Give our people back the hope and confidence they can have life look the way they want it
- ✓ Teach our people the skills to lead a great life
- ✓ To breath life into our employees lives
- ✓ They will then breath life into your company's life

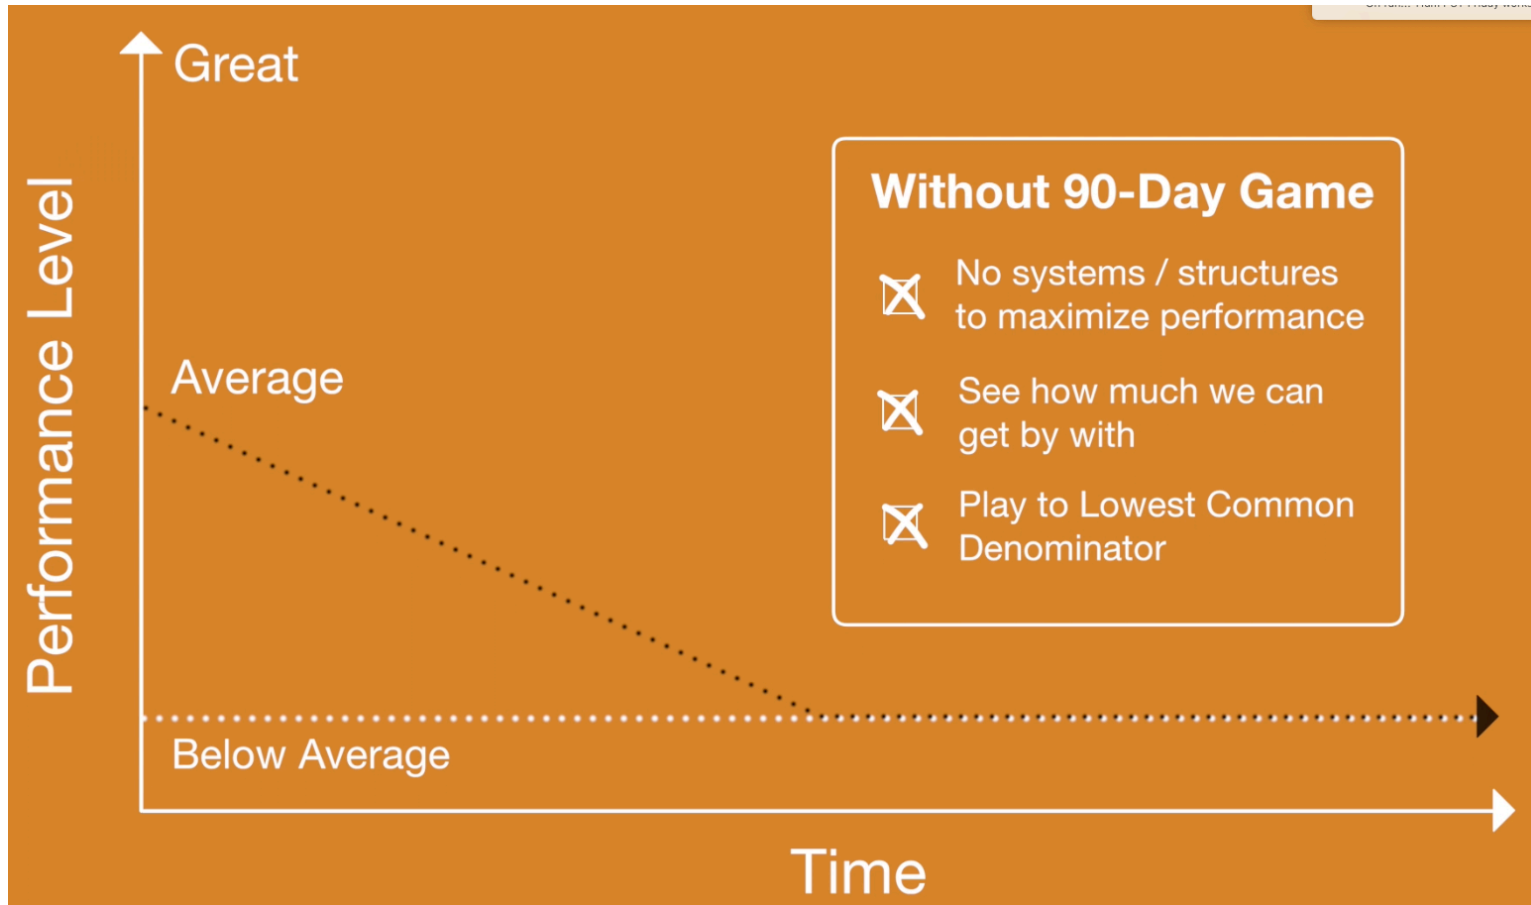

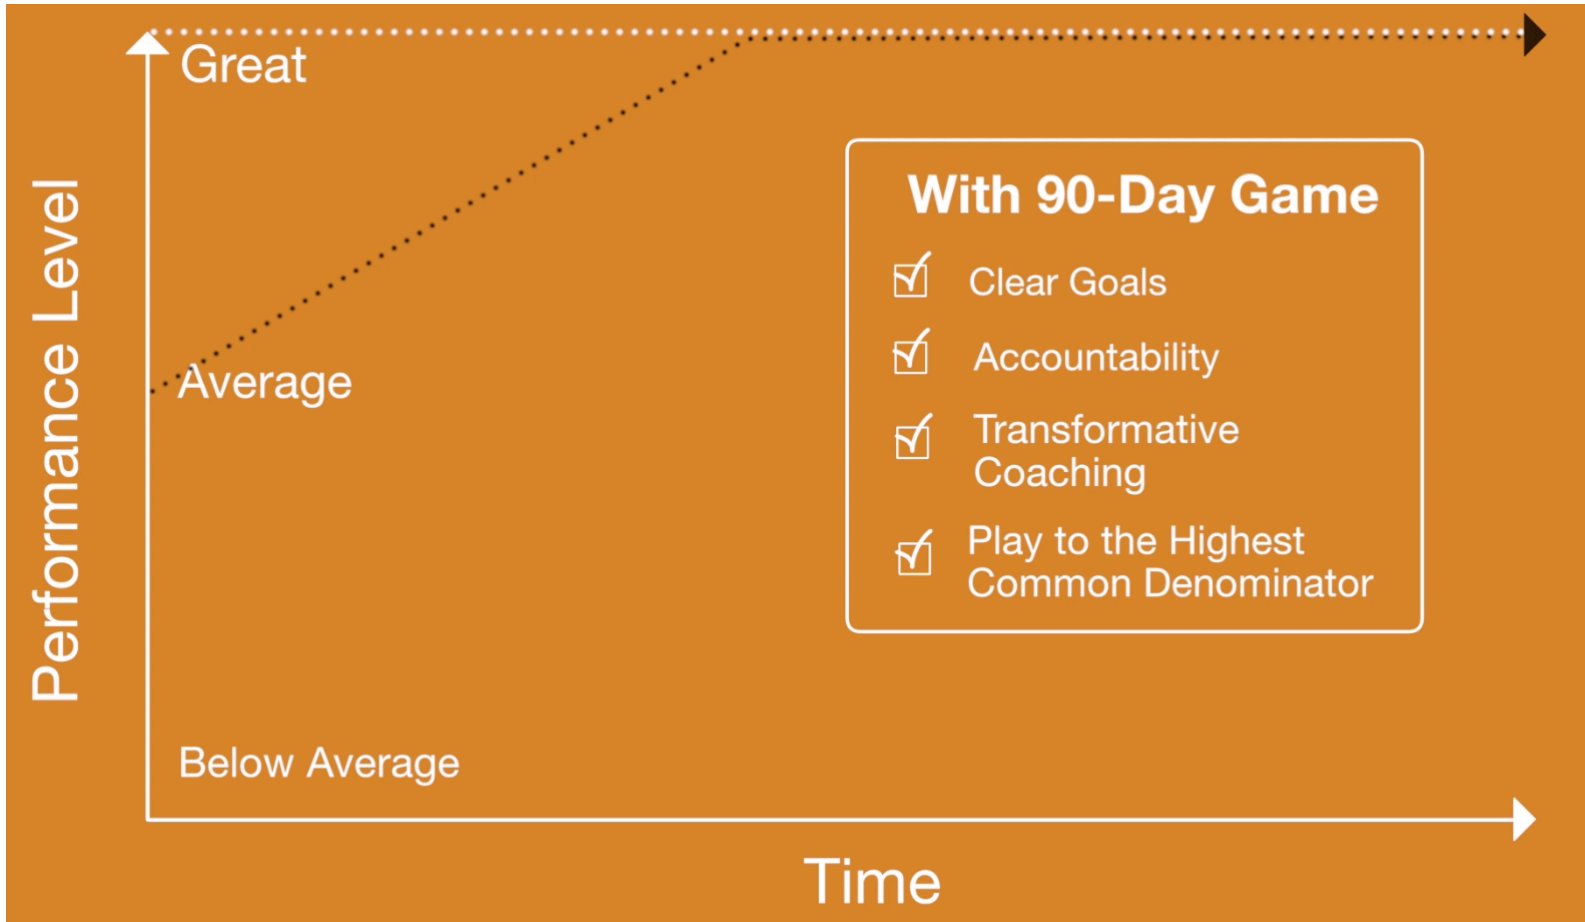

# Motivation

Leveraging Different Facets of What Motivate Us

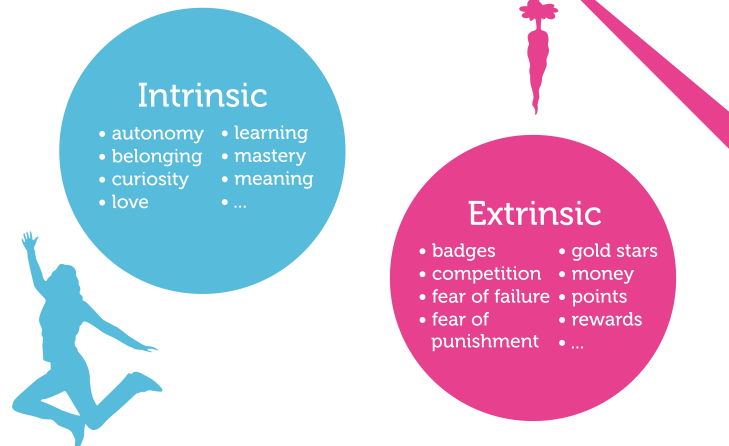

Daniel Pink argues that human motivation is largely intrinsic, and that the aspects of this motivation can be divided into autonomy, mastery, and purpose.

He argues against old models of motivation driven by rewards and fear of punishment, dominated by extrinsic factors such as money.

We embrace all models of motivation...

We say that what you currently have in your life is what your **PLBs** allow for.

- ✓ What you have lives inside of your box.
- ✓ What you want lives outside of your box.

When you want something that lives outside your box you work harder, longer, even smarter – *against your PLB*

Taking action from inside your **PLBs** requires LOTS of will power, results in ineffective action, and is unsustainable.

What you **Want** In  
Your Life & Don't Have

- Reaching goals requires *taking successful action over time*
- We usual operate *inside* our PLBs
- Your PLBs limit your access to your full human potential

# Productivity Increase

Set Up Time and Weekly Time Commitment – and Is It Worth It?

On average for small businesses, between 15-30% of your gross revenue (\$150k to \$300k on each \$1M gross revenue earned) goes to salaries.

*Increasing team productivity is one of the most clear cut ways that you can increase profit margins.*

According to Brian Tracy's “Law of Planning”

- ❑ Every minute that you spend planning your goals, your activities, and your time in advance **saves ten minutes** of work in the execution of those plans.
- ❑ Therefore, careful advance planning **gives you a return of ten times** on your time investment.
- ❑ Just 12 minutes of planning each day in advance will save you approximately two hours per day, or a **25% increase in productivity**.

These principles of planning and execution at the year, quarter, week and day level **automatically** integrates Brian Tracy’s Law of Planning and the associated **25% increase in productivity** per employee per day into your business – every day you are using the system.

“In just 90 days we experienced a 100% increase in productivity through the 90-Day Game. We got done in 3 months what would have normally taken us 6 months. ”

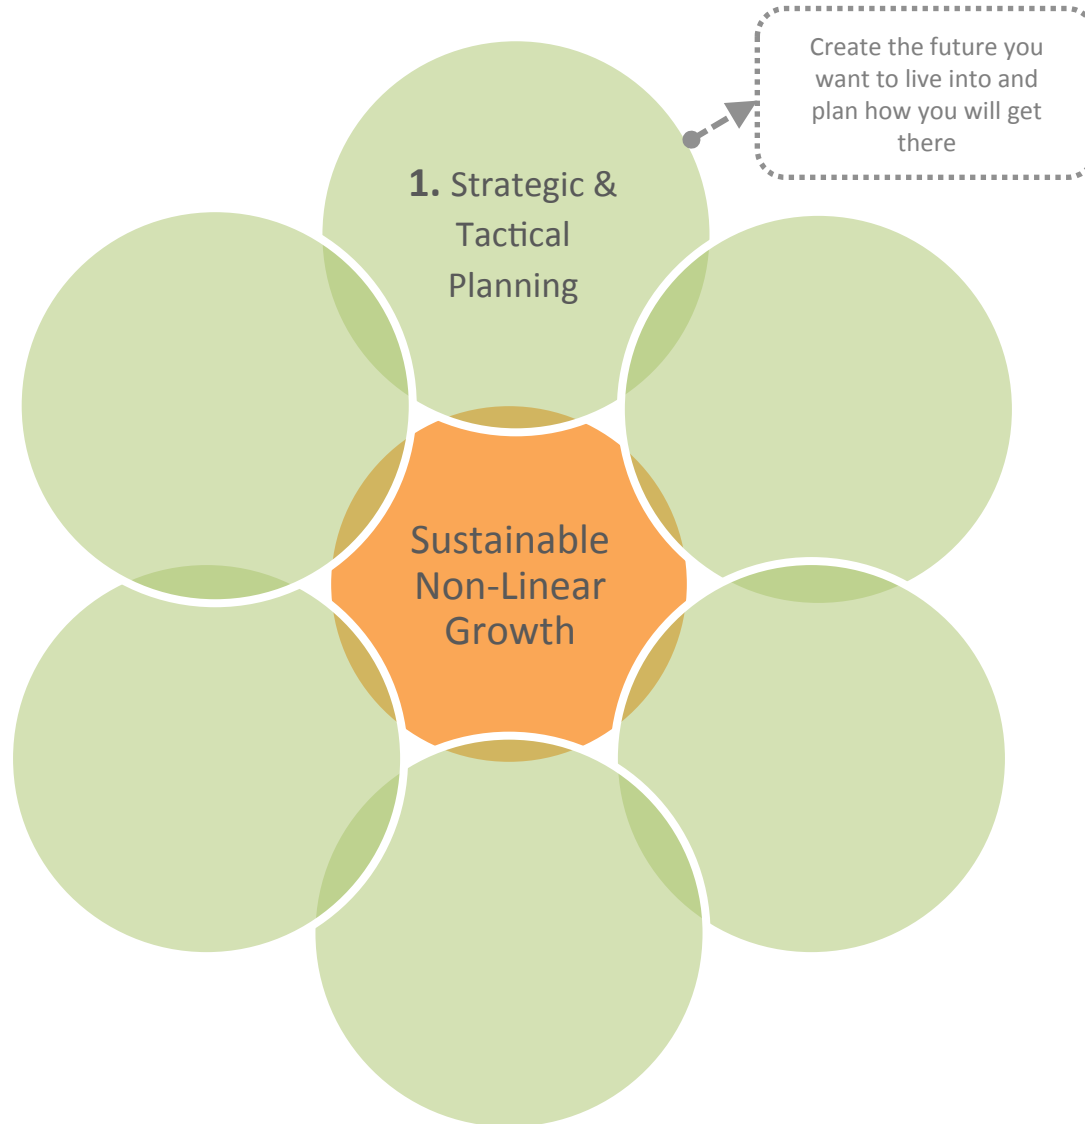

- Kate Maloney (CEO – RiseUp The Movie)

“The 90-Day Game brought a whole new level of power and accountability to my company. Through the Game System we increase productivity by 50% helping my company to grow faster and more profitable than ever before.”

	<p><b>My Personal Game Intention:</b></p> <p>Become a great leader. Respected by the people I meet in life, inspiring them to take action to follow my vision, and being of service to them to bring out the best in them.</p>	<p><b>Reflection:</b> This week was very busy working on building teams and discovering resources for funnel building, which was also very successful. Actually "doing" the trench work was overcome by training and developing systems.</p> <p><b>Wins:</b> Successfully started daily #Heartbeat.</p> <p><b>Roadblocks:</b> Lack of input/agreement from higher up on some projects prevented me from moving forward on some of my deliverables. However to be fair, the work the higher ups were doing was more important than the affected deliverables.</p> <p><b>Up-Level Action:</b> Continue training marketing team on the use of the Funnel Management System. Continue to work with marketing consultants to complete and improve funnels. Ensure the team is 100% ready to launch the Christmas promo.</p>	<b>Performance Points:</b>		<b>Points Earned: 5</b>

### The Culture Equation, Leadership Coaching, Spot Coaching:

#### THE CULTURE EQUATION =

Being 100% x (In-Integrity + Responsible + Committed  
Accountable + Communicative + Productive)

#### 1 Being

Taking on **Being** these cultural elements **100%** allows us to turn them from concepts into actionable tools.

#### 2 Integrity

#### 3 Responsible

#### 4 Committed

#### 5 Accountable

#### 6 Communicative

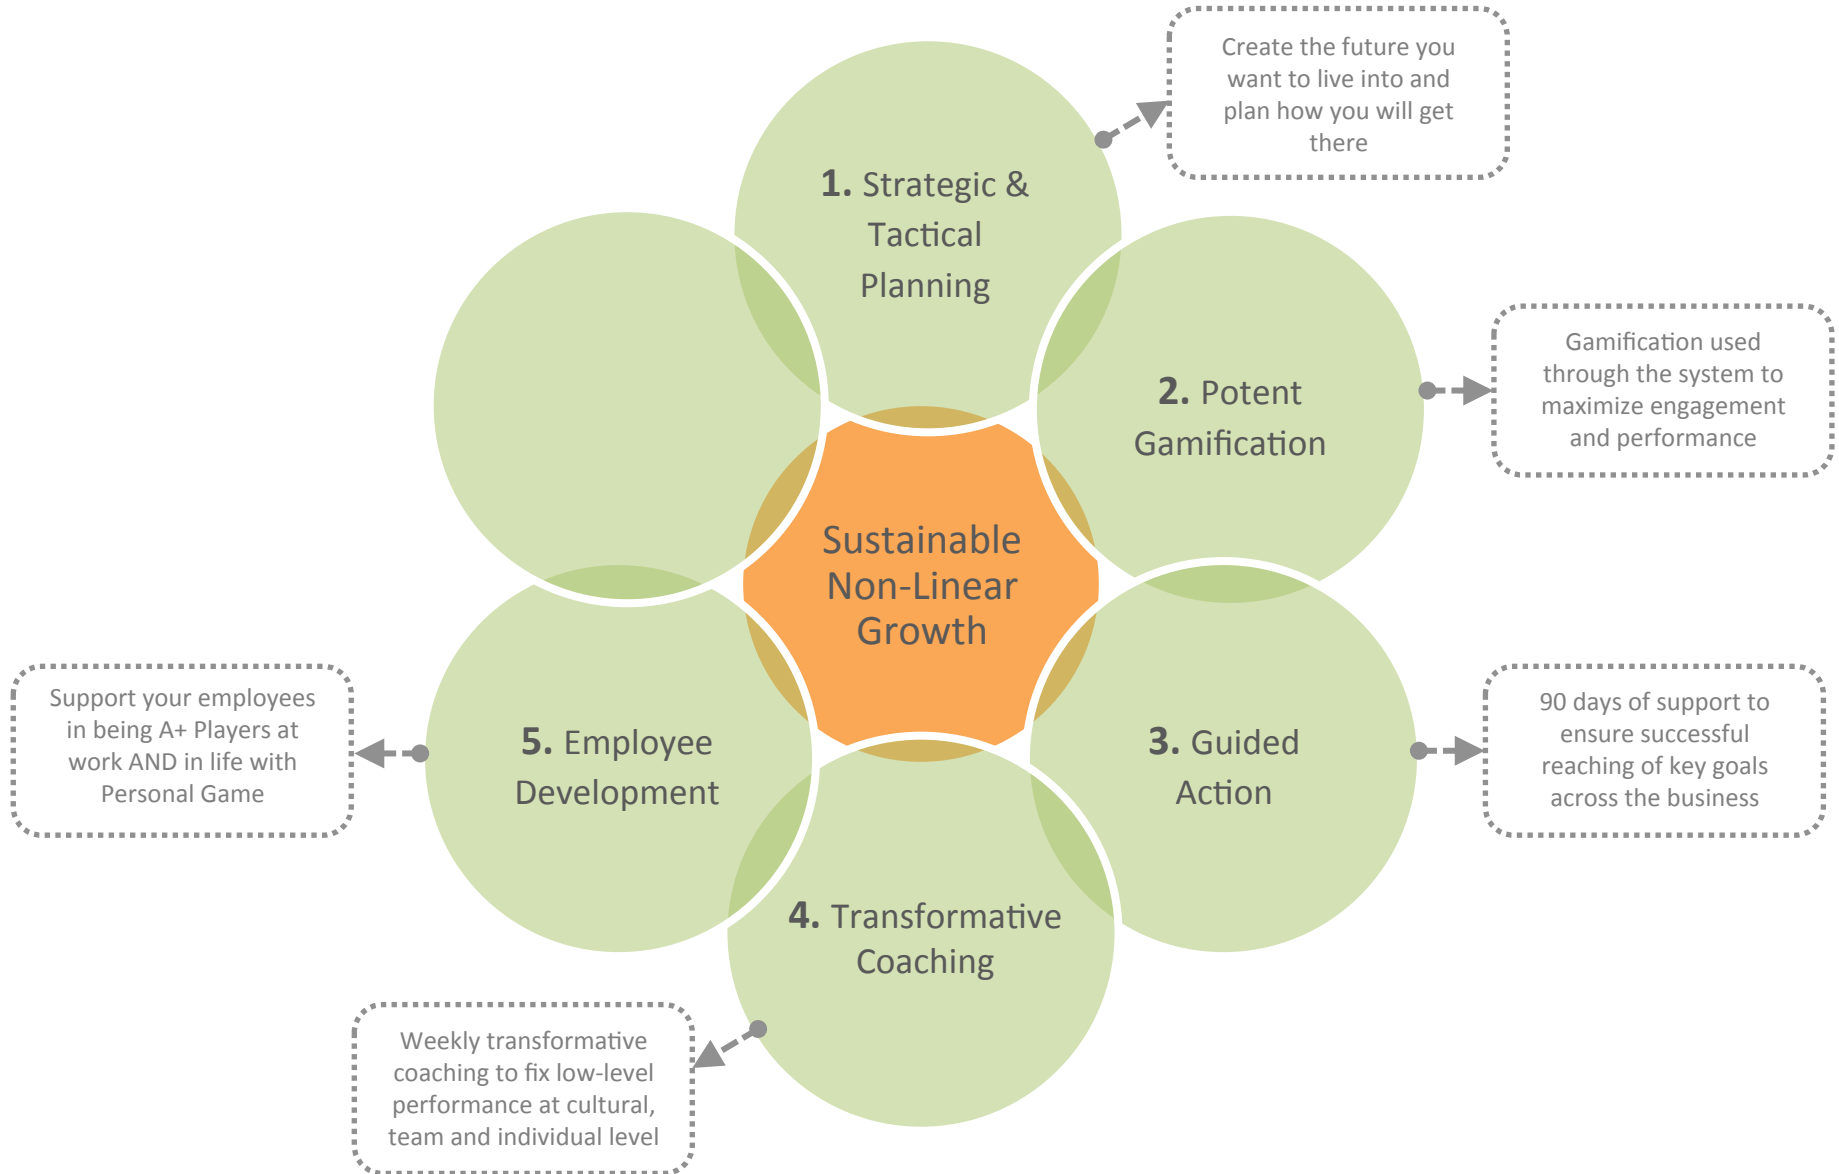

#### 7 Productive

▶ TRUST ▶ TEAMWORK

Trust and Teamwork naturally emerge when the 7 elements of the Culture Equation are mastered and used regularly.

” Through the 90-Day Game and Raj's coaching, our team experienced a profound shift in the level of engagement and the way we dealt with issues. Beyond the positive change towards improved efficiencies and customer experience, the way the team is working inter-personally are having a ripple effect across the organization in breaking down silo behaviors and dysfunction.”

# You're In Good Company

If You Want An Insider's View and Unbiased Opinion

"The 90-Day Game allowed our team to get crystal clear about our priorities for the next phase of our growth. Through a weekly meeting and coaching rhythm we stayed aligned and accountable and accomplished far more than we ever had before - ultimately hitting 97% of our goals. I highly recommend the 90-Day Game

- David Hassell (CEO – 15Five)

“Our company had a chronic problem with changing direction and not following through. To put it into a word, chaos. We had no focus, because we were trying to accomplish too many projects at the same time and not actually achieving our goals. Transformance has given us the structure and visibility we have needed for years to scale our company while improving our culture and making our company an even more enjoyable place for our employees to work.”

- Amanda Dobson (HR - Activation Products)

"No amount of money could pay for what we got from Raj and the 90-Day Game. What he did for me, our employees, and The Foundation is priceless."

- Dane Maxwell (Founder - The Foundation)

"I've grown faster in my personal and work life through the 90-Day Game than anything else I've ever done before."

- Andrew Setzo (Marketing Team - The Foundation)
